2023-24 School Description and Mission Statement

JCS-Pine Valley is a TK-12 parent-choice charter school that serves students in East County San Diego. JCS-Pine Valley Academy 6-12 is a unique program in the community of Pine Valley, California. The academy campus is spread out among the small town. Pine Valley Academy has both middle school and high school programs with students coming to school a minimum of two days and a maximum of four days per week based upon classes. All classes are taught by credentialed teachers lifting some of the responsibility of independent study. Pine Valley Academy's emphasis is cultivating character in order to prepare students to become global citizens. Students are involved in community service, field trips, and hands- on learning activities. PVA has a schoolyard habitat program that has been certified as a wildlife habitat. Students recycle community refuse with their worm project, as well as collect and recycle glass, aluminum, and paper. Pine Valley Academy is known for being a caring environment where students of all levels can excel.

Parents who wish to play a significant role in their student's education may choose the home study program. JCS Pine Valley TK-12 Home Study provides the most flexibility for students and parents, but also requires the greatest responsibility and selfdirection. Students work primarily at home under the guidance of their parents to learn content and complete assignments created by credentialed teachers. Varied standards based curriculum choices including online and teacher led options are offered. Students have monthly meetings with their teachers to turn in work, and receive new assignments. Support and tutoring along with access to classes, field trips, events, and activities are all available at varying levels based on the interest and the needs of our home study families.

JCS - Pine Valley's vision is to work in partnership with families to ensure all learners develop the necessary skills to become contributing members of our local and global communities. We are dedicated to nurturing passionate lifelong learners.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

High quality instructional materials and curricula are available for all students at all grade levels. Materials are updated and replaced, as needed. Standards-aligned textbooks and other instructional materials are stocked in the Resource Center and, as needed, available through special order. The TK-8 program has extensive flexibility to work with instructional materials that optimize learning and teaching for the student and family, while the high school program has recommended, and in some cases required, materials for core and elective coursework. In science, appropriate standards aligned take-home science kits and site-based labs are available for all students not taking the science course in a classroom. The school does not strictly adhere to the state's textbook adoption cycle.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 Career Technical Education Programs

Students may participate in a state-approved work study program where students gain skills and knowledge in job-related topics while being employed. Students have a variety of elective courses they may take that are focused on career preparation and interests they have expressed. We have developed informal relationships with various community colleges and work programs based on student populations' particular interests and needs. Students take CTE pathways courses through Edgenuity. We have begun to identify our pathways for CTE and working towards implementing the first full pathway. We have also partnered with our sister school, JCS-Manzanita, to participate in an online dual enrollment program with Grossmont Community College to allow students to receive college course credit.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Because JCS-Pine Valley is an independent study program, parental involvement is welcome and very much needed. For academy students, parents are welcome to see their students' work through the Parent Portal and be a part of Project Week. We have multiple field trips throughout the year which parents can participate in. Parents are an integral part of our School Site Council which hold regularly scheduled meetings that can be found on our website. We also have additional activities throughout the year for parents, such as PSAT and PSAT8 trainings, Canvas trainings, College and Career Night, Family Nights, CHYA informational meetings, and other informational meetings as needed. Other examples of involvement include participation in the daily/weekly teaching of their children, opportunities to serve on the Board, monthly meetings with an educational facilitator. In addition, parents are invited to participate in professional development programs, workshops and support groups offered by the school. Communication mechanisms include meetings with facilitators; site newsletters; event and opportunity flyers; parent surveys; e-mail; Zoom; Canvas; ParentSquare and the JCS-Inc web site.

2023-24 School Safety Plan

Our School Safety Plan was last revised and approved in March 2023 for the 2023/2024 school year. Before the revision, a meeting was held in November 2022 for public input. Our school site council is currently reviewing and updating the plan for the 2024/2025 school year and it will be approved in March 2024. The School Site Council acts as the Safety Committee for JCS-Pine Valley and reviewing/updating the annual safety plan is an important order of business. The School Site Council meets in November, February, and May. Our main focus is on student and staff well-being and safety. Our three major actions are: 1. Provide online training to staff on awareness of key wellness topics such as Bullying (Recognition and Response), Youth Suicide, Online Safety (predators), Boundary Invasion, Mandated Reporter: Child Abuse and Neglect; and Human Trafficking Awareness; 2. Provide social-emotional training on bullying, harassment, and suicide prevention for students; and 3. Initiate increased safety procedures and prevention.

Professional Development

JCS-Pine Valley hosts professional development days throughout the school year, approximately every eight weeks. Teachers also have a Professional Development week at the beginning of semester 2 during which all students have a Project Week. For 2023-24 primary professional development has focused on creating area experts to train others. Such areas include Canvas, Achieve3000, Heggerty, Beginning Math, Singapore Math, Rtl, Nancy Fetzer Writing, Leader in Me book study, behavior management, and TK certification. Staff forums focus primarily on school policy, student achievement, curriculum, teaching and learning strategies, technology support and training, and self-selected professional learning communities. Teachers new to the profession and new to independent study receive support through mentoring opportunities. Additionally, teachers are encouraged to attend outside conferences and workshops, particularly those that focus on writing, math, personalized learning and those that foster leadership. Parents are invited to attend professional development day trainings and events and parent-specific core subject area workshops provide additional opportunities for professional development.

This table displays the number of school days dedicated to staff development and continuous improvement.
