## 2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

### 2024-25 School Description and Mission Statement

JCS-Pine Valley (<https://pinevalley.jcs-inc.org/>) is a TK-12 school sponsored by the Mountain Empire School District. Its mission is to cultivate character and prepare students to become global citizens. JCS-Pine Valley JCS-Pine Valley has two programs:

Pine Valley Academy is a 6-12 Academy program in Pine Valley, CA. Academy students attend classes two (2) days/week and have assignments to complete at home three (3) days/week.

## 2024-25 School Description and Mission Statement

Pine Valley Home Study is a TK-12 Home Study serving students in San Diego County. Pine Valley Home Study families meet regularly with credentialed teachers to review assignments and curriculum. There are a variety of opportunities and resources available.

All students at JCS-Pine Hills have the opportunity to attend field trips and activities that move them into the community and encourage global awareness. They can also play intramural sports with JCS or high school sports with Mountain Empire High School.

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## 2020-21 Teacher Preparation and Placement

Authorization/Assignment	School Number	School Percent	District Number	District Percent	State Number	State Percent

Note: For more information refer to the Updated Teacher Equity Definitions web page at <https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp>.

## 2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

High quality instructional materials and curricula are available for all students at all grade levels. Materials are updated and replaced, as needed. Standards-aligned textbooks and other instructional materials are stocked in the Resource Center and, as needed, available through special order. The TK-8 program has extensive flexibility to work with instructional materials that optimize learning and teaching for the student and family, while the high school program has recommended, and in some cases required, materials for core and elective coursework. In science, appropriate standards-aligned take-home science kits and site-based labs are available for all students not taking the science course in a classroom. The school does not strictly adhere to the state's textbook adoption cycle.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	43	31	40	38	46	47
<b>Mathematics</b> (grades 3-8 and 11)	28	29	25	26	34	35

## 2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 Career Technical Education Programs

Students may participate in a state-approved work study program where students gain skills and knowledge in job-related topics while being employed. Students have a variety of elective courses they may take that are focused on career preparation and interests they have expressed. We have developed informal relationships with various community colleges and work programs based on student populations' particular interests and needs. Students take CTE pathways courses through Edgenuity. We have begun to identify our pathways for CTE and working towards implementing the first full pathway. We have also partnered with our sister school, JCS-Manzanita, to participate in an online dual enrollment program with Grossmont Community College to allow students to receive college course credit.

## 2023-24 Career Technical Education (CTE) Participation

Measure	CTE Program Participation
Number of Pupils Participating in CTE	13
Percent of Pupils that Complete a CTE Program and Earn a High School Diploma	
Percent of CTE Courses that are Sequenced or Articulated Between the School and Institutions of Postsecondary Education	

## Course Enrollment/Completion

This table displays the course enrollment/completion of University of California (UC) and/or California State University (CSU) admission requirements.

UC/CSU Course Measure	Percent
2023-24 Pupils Enrolled in Courses Required for UC/CSU Admission	100
2022-23 Graduates Who Completed All Courses Required for UC/CSU Admission	71.43

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade Level	Component 1: Aerobic Capacity	Component 2: Abdominal Strength and Endurance	Component 3: Trunk Extensor and Strength and Flexibility	Component 4: Upper Body Strength and Endurance	Component 5: Flexibility
Grade 5	94%	94%	94%	94%	88%
Grade 7	89%	89%	84%	79%	84%
Grade 9	--	--	--	--	--

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2024-25 Opportunities for Parental Involvement

Because the school is an independent study program, parental involvement is necessary to the extent that students need instructional support from parents on homeschool days. This is included in the terms of the Independent Study Written Learning Agreement, which all parents, students, and associated staff sign before the first day of instruction each year. Students in the full Home Study program need parent support regularly for instruction and parents partner with the school and their child's Educational Facilitator to design and facilitate a personalized learning program aligned to academic standards. Students enrolled in the Academy program need full parent support on homeschool Fridays and parents partner with Academy teachers to ensure homeschool assignments are personalized and appropriate for their child's needs. Additionally, parents and students participate in several project weeks throughout the school year which incorporate voice/choice and rely heavily on parent support as the instructional guide.

In addition to instructional involvement, the school offers multiple field trips throughout the year which parents can chaperone and participate in. Within the Academy program, parents can also volunteer in their child's classroom to support the learning of a group and/or provide enrichment such as art, music, Spanish, and other extracurriculars. Regarding school decision-making, parents are equal partners in developing the vision and plans for the school. Parents are seen as problem-solvers who can help address challenges. Parent voice and input are integral parts of our School Site Council and Parent Teacher Organization which hold regularly scheduled meetings that can be found on our website. Other examples of involvement include opportunities to serve on the JCS Board. In addition, parents are invited to participate in professional development programs, workshops, and support groups offered by the school. Communication is active and personal and some mechanisms include face-to-face meetings with facilitators, personal phone calls home, and direct text messaging. Parent surveys, e-mail, Zoom meetings, Canvas for assignment monitoring, ParentSquare, and the JCS-Inc website are also important forms of one and two-way communication.

## 2024-25 School Safety Plan

The School Safety Plan was last revised and approved in February 2024 for the 2024/2025 school year. Before the revision, a meeting was held in November 2023 for public input. Our school site council is currently reviewing and updating the plan for the 2025/2026 school year and it will be approved by the JCS Board by March 1, 2025. The School Site Council acts as the Safety Committee for the school and reviewing/updating the annual safety plan is an important order of business. The School Site Council typically meets in November, February, and May. Our main focus is on student and staff well-being and safety. Our three major actions are: 1. Provide online training to staff on awareness of key wellness topics such as Bullying (Recognition and Response), Youth Suicide, Online Safety (predators), Boundary Invasion, Mandated Reporter: Child Abuse and Neglect; and Human Trafficking Awareness; 2. Provide social-emotional training on bullying, harassment, and suicide prevention for students; and 3. Initiate increased safety procedures and prevention.

## Professional Development

JCS-Pine Valley hosts professional development days throughout the school year, approximately every eight weeks. Teachers also have a Professional Development week at the beginning of semester 2 during which all students have a Project Week. For 2024-25, professional development is focused on internal cross-training by creating staff experts in important areas such as Canvas, Achieve3000, Heggerty Phonemic Awareness, Beginning Math, Singapore Math, PBIS, Nancy Fetzter Writing, and Transitional Kindergarten. For all JCS schools, Leader in Me, an evidence-based model for schools focused on leadership, culture, and academics that equips students, educators, and families with essential leadership and life skills, preparing them to excel, is also a professional development focus in the 2024/2025 school year.

Staff forums focus primarily on school policy, student achievement, curriculum, teaching and learning strategies, technology support and training, and self-selected professional learning communities. Teachers new to the profession and new to independent study receive support through mentoring opportunities. Additionally, teachers are encouraged to attend outside conferences and workshops, particularly those that focus on writing, math, personalized learning, and leadership. Parents are invited to attend professional development day trainings and events and parent-specific core subject area workshops provide additional opportunities for professional development.

This table displays the number of school days dedicated to staff development and continuous improvement.
