Per law, all Non-classroom Based Charter School Families with two or more schools in two or more counties will conduct board meetings in the county which has the most students. Currently, San Diego County has the most students. If Riverside County grows larger than San Diego, the meeting schedule will be adjusted to reflect the county with the largest student population. All meetings are available via Zoom off the JCS, Inc. Governance website and are recorded.

Locations may change. All meetings will be available via Zoom for the public.
